This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

A CATALOGUE of the Library of the Royal Statistical Society, arranged under authors' names, was published in 1884, and this was supplemented by a subject index in 1886. Since that time large additions have been made to the Library, and within the last two years an examination of the whole of the books has been carefully made with the view of eliminating those which do not come strictly within the scope of the Society.

At the present time the number of books and separate publications in the Library is approximately 50,000. The time has, therefore, come when the publication of a new catalogue is essential. The present catalogue, which comprises (with certain exceptions named below) all works included in the Library on December 31st, 1906, has been prepared on a plan differing slightly from that previously adopted, and has been arranged with the view of affording means of easy reference with due regard to economy of space.

In consulting the volume the following general rules adopted in its compilation should be borne in mind:—

I. **Parliamentary** and **Official Papers** of the **United Kingdom** are not separately entered, but general entries have been made under the subject-headings of the principal series, such as Births, Deaths and Marriages; Census, &c. The official Catalogues of Parliamentary Papers are available for reference at the Society's Library, and are marked to indicate the publications which are in the Library. **Municipal Publications** of British and Irish towns are entered under the names of the towns, and, where numerous, grouped under several subject-headings.

II. **Foreign** and **Colonial Official Returns** are brought together under the name of the country or colony, and grouped as follows:—

(*a*) Publications relating to the whole country or colony arranged under subject-headings in chronological

order, statistical year books and others of a general nature coming first.

(*b*) Provincial publications similarly arranged.

(*c*) Municipal returns similarly arranged.

III. As regards **Societies** and **Institutions**, British bodies have been placed under the chief word of their designation; Foreign and Colonial Societies under the name of their respective countries. Contributions to the transactions of societies are entered under the authors' names in the following cases:—

(*a*) *Journal of the Royal Statistical Society;*

1.—All Papers read before the Society and printed in the Journal from 1838–1906.

2.—Papers appearing in the "Miscellanea" of the Journal, including translations, from 1884–1906, exclusive of reprints from other journals and abridgments of Parliamentary reports.

(*b*) *Transactions of the Manchester Statistical Society;*

(*c*) *Journal of the Statistical and Social Inquiry Society of Ireland;*

(*d*) *Bulletin de l'Institut International de Statistique;*

(*e*) *Publications of the Congrès International de Statistique;*

(*f*) *Publications of the Commission Permanente de Statistique;*

(*g*) *Statistique Internationale.*

IV. **Periodicals**, whether British or foreign, are arranged under their titles.

V. **Anonymous** books, not of an official character, have been placed under their subject-headings; those dealing with a specific country or town have been placed under such country or town.

VI. The Society's collection of **Tracts**, which were enumerated in detail in the former catalogue, have been omitted. An exception has been made in the case of certain Tracts in Series I. dealing with statistical methods and theory. A complete card catalogue of all tracts is available for reference in the Society's Library.

REGULATIONS OF THE LIBRARY.

1. The Library and the Reading Room are open daily from 10 a.m. to 5 p.m., except on Saturdays, when they are closed at 2 p.m.

2. Every Fellow, whose subscription is not in arrear, is entitled to consult books and to use the Reading Room. Persons who are non-Fellows may be allowed to use the Library and Reading Room for a definite period on presentation to the Librarian of an introduction by a Member of Council. All cases in which temporary permission has been granted to non-Fellows shall be reported to the Library Committee at its next meeting. No books may be borrowed except by Fellows.

3. Fellows may borrow books from the Library on personal application, or by letter addressed to the Assistant Secretary or Librarian, all expenses for carriage being paid by them.

4. No Fellow may have more than ten volumes out at any one time or keep any book longer than one month, except by special authority from the Chairman of the Library Committee or an Honorary Secretary.

5. Cyclopædias, books of reference, and unbound scientific journals and periodicals, may be borrowed only on the written order of an Honorary Secretary for a period not exceeding *four days*. If books so lent be not returned within the specified time, the borrower shall incur a fine of one shilling per day per volume for each day they are detained beyond the time specified.

6. Any Fellow who damages or loses a book shall either replace the work or pay a fine equivalent to its value.

7. Readers are not themselves to replace books taken from the shelves, but to lay them on the Library table.

8. Any infringement of these regulations will involve the suspension of the right to the use of the Library, and shall be reported to the Library Committee at its next meeting.
